01

STRUCTURE AND FOUNDATION ESTRUCTURA Y CIMENTACIONES

Reinforced concrete.
Hormigón Armado.

02

FRONT AND PARTITION WALLS FACHADAS Y PARTICIONES

Front

Rendered and painted finish.
Brick façade with rendering, mineral wool insulation of 40 mm and double laminated drywall panel of 13 mm.

Simulated wood siding finish.
The frames and façade parts indicated in the project shall be resolved by means of lining based on a technological synthetic wood floor tile with concealed fixations.

Fachadas

Terminación enfoscado y pintado.
Fachada de ladrillo con enfoscado, aislamiento de lana mineral de 40mm y doble placa de yeso laminado de 13mm.

Terminación en aplacado simulando madera. Los petos y partes de fachada señalados en proyecto se resolverán mediante revestimiento a base de tarima sintética tecnológica imitando a madera con fijaciones ocultas.

Separation between houses

Mixed Pladur partition wall with mineral wool insulation and double laminated drywall panel of 13 mm, soundproof ceramic brick.

Separación entre viviendas

Tabique Mixto de Pladur con aislamiento de lana mineral y doble placa de yeso laminado de 13 mm, ladrillo cerámico fonoresistente.

Interior partition-walls

Double laminated drywall panel of 13 and 15mm with thermal and acoustic insulation and rock wool panel. Waterproof in bathrooms and kitchens.

Tabiquería interior

Doble placa de yeso laminado de 13 y 15 mm aislado térmica y acústicamente con panel de lana de roca. Resistente al agua en baños y cocinas.

03

CARPENTRY CARPINTERÍA

Entrance door

Security. Armoured pivoting door of 900x2100 mm panelled with smooth lacquered board on interior face which matches the hall doors and a wood finish phenolic board on the exterior face. High security multi-point lock with anti-dumping cylinder lock.

Puerta de entrada

De seguridad. Hoja acorazada de 900x2100 mm panelada con tablero en DMF liso lacado en cara interior a juego con puertas de paso y en tablero fenólico acabado madera al exterior. Cerradura multipunto de alta seguridad con bombillo antidumping.

CARPENTRY CARPINTERÍA

Hall doors

Hinge, with pine preframe and variable height. Smooth solid door, by means of a board in lacquered DM water-repellent one piece of 45 mm, hinges or sliding, with concealed frame and rubber to dampen the shutting of the door and magnetic slip. They shall comply with that stipulated in the CTE-DB-HS3.

Puertas de paso

Abatible, con precero de pino y de alto variable. Hoja maciza lisa, mediante tablero en una pieza de DM hidrófugo lacadas de 45 mm, abatibles o correderas, con marco oculto y con goma para amortiguar cierre de puerta y resbalón magnético. Cumplirán con lo establecido en el CTE-DB-HS3.

Wardrobes

Modular wardrobe with hinge lacquered doors from the floor to the ceiling. Interior in textile melamine, fully equipped, drawer units, chrome hanging rail, shoe racks, shelves and trouser racks. Wardrobe front section with lacquered DM water-repellent doors with variable height adjusted to the ceiling.

Armarios

Armario modular de hojas abatibles, lacado. Interior en melamina textil, completamente equipados, cajoneras, barra de colgar cromada, zapateros de barras, baldas y pantaloneros. Frente de armario con hojas en DM hidrófugo lacado de alto variable ajustado a techo.

Terrace windows and doors

Sliding doors with concealed frame with 2 doors in 2 rails with structural galvanized steel preframe of 100x30x3 mm, with aluminium frame sections with thermal break trim. Lacquered finish.
Tilt-and-turn hinge windows with fixed bottom, with aluminium profiles with thermal bridge break.

04

METAL CARPENTRY AND LOOKSMITH FITTINGS CARPINTERÍA METÁLICA Y CERRAJERÍA

Perimeter fence

Masonry wall with vegetal finish up to 2 m high.

Vallado perimetral

Muro de obra con remate vegetal hasta 2 m de altura.

Garage door

Door with swing opening made of galvanized stainless steel with thermolacquered finish and wood-like exterior.

Puerta de garaje

Puerta con apertura batiente de acero galvanizado inoxidable termolacado con acabado exterior madera.
